

**POWDER-FREE SYNTHETIC EXAMINATION GLOVES**

The switch from latex to synthetic gloves is gaining momentum. The change has been gradual, as available synthetics simply haven't matched the combination of comfort, fit, feel and value found in latex – until now. Microflex® synthetic gloves offer revolutionary softness and strength at a great value. If the timing is right for you to make the switch to a synthetic glove, trust Microflex to meet your needs.

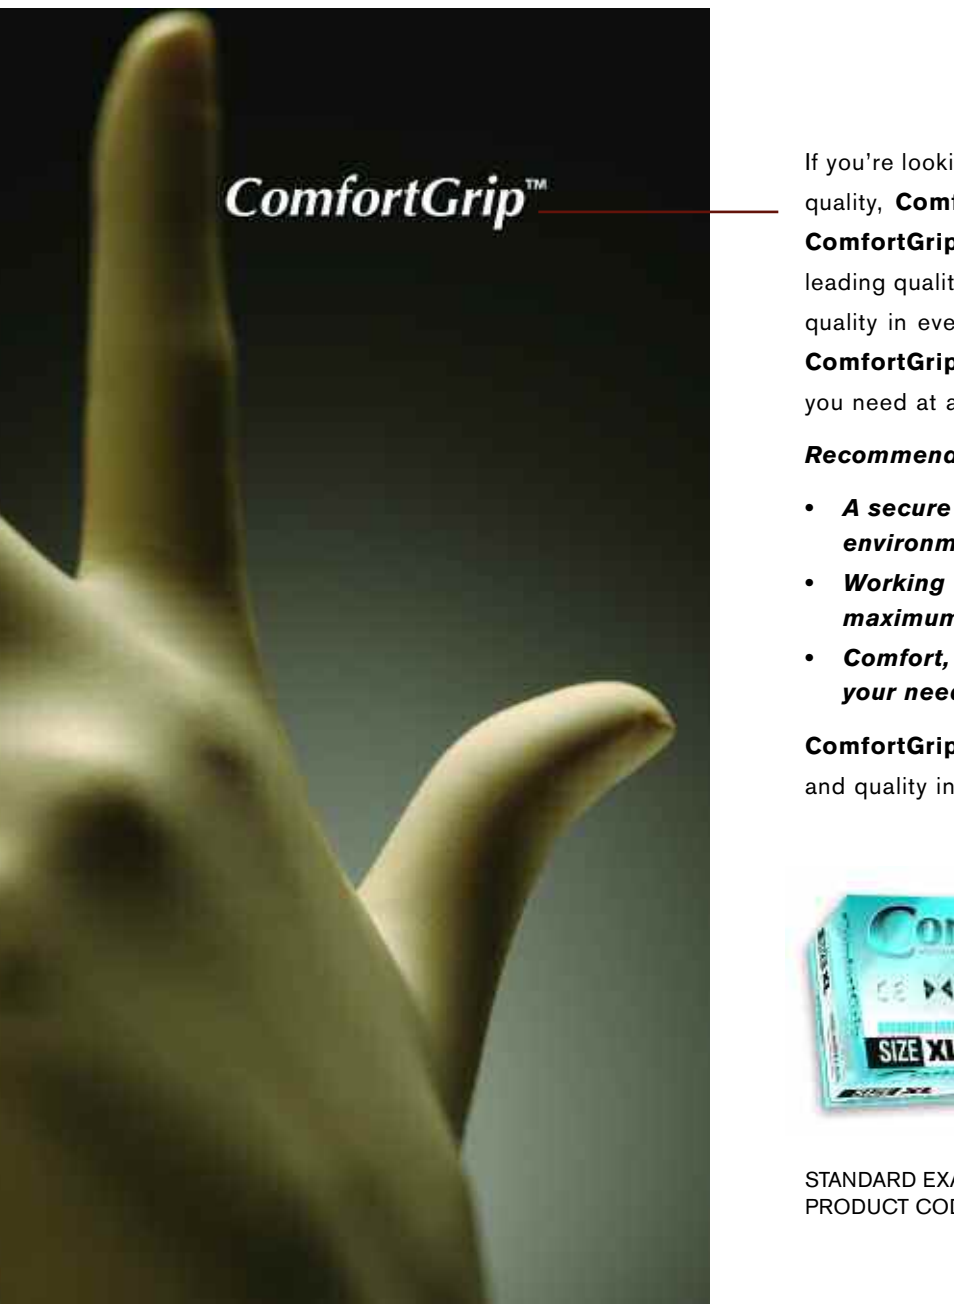

**Caution (Synthetic):** Components used in making these gloves may cause allergic reactions in some users. Follow your institution's policies for use.

**POWDER-FREE LATEX EXAMINATION GLOVES**

Microflex provides reliable and consistent quality through our latex glove line-up. Whether you desire a comfortable fit, a strong and secure grip, or a durable and reliable option, we have you covered. Here are some of the latex products we have designed specifically for Industrial professionals.

**Caution (Latex):** This product contains natural rubber latex (latex) which may cause allergic reactions. Safe use of this glove by or on latex sensitized individuals has not been established.

**ComfortGrip™**

If you're looking for the best combination in value and quality, **ComfortGrip™** is the latex glove you need. **ComfortGrip™** gloves are backed by the industry's leading quality system to offer consistent comfort and quality in every box. Fully textured for a secure grip, **ComfortGrip™** gloves provide the fit and protection you need at a competitive price.

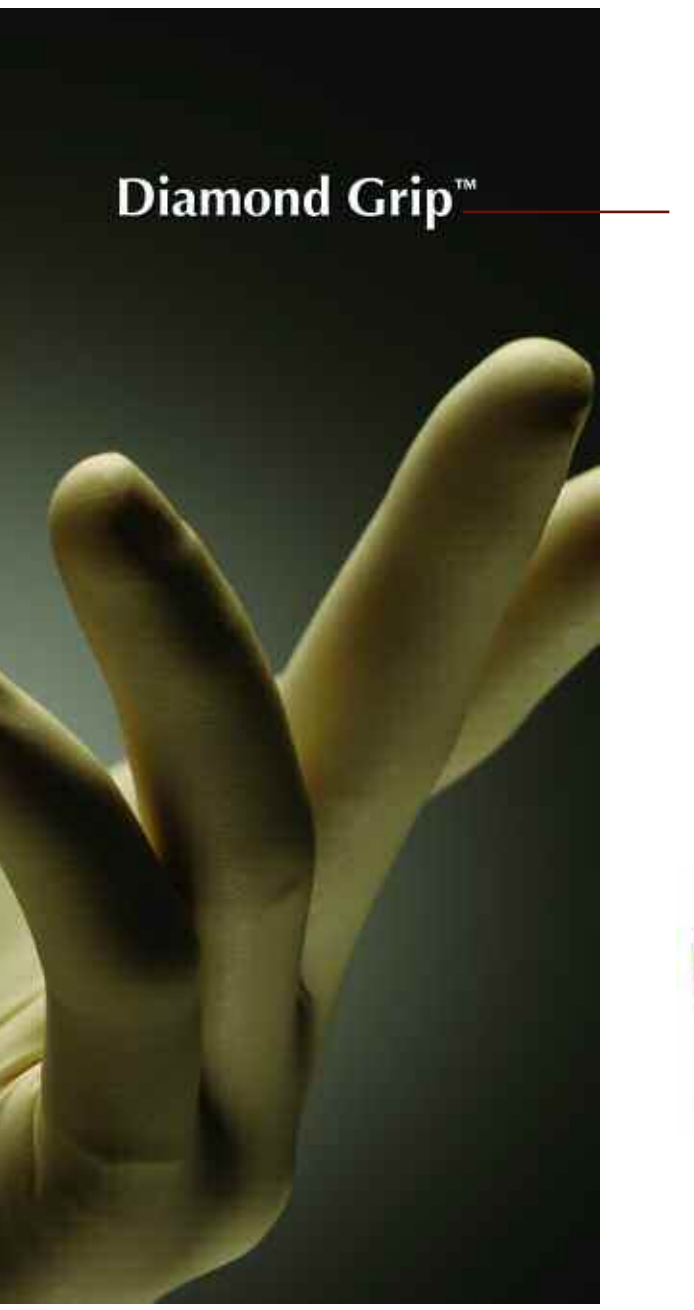

**Recommended for use when:**

- **A secure grip is needed in wet and dry environments**
- **Working with small instruments require maximum sensitivity**
- **Comfort, quality and value are crucial to your needs**

**ComfortGrip™** gloves offer the best overall value and quality in a latex glove.

STANDARD EXAMINATION GRADE  
PRODUCT CODE: **CFG-900-XS** through **XL**

**Diamond Grip™**

For the benchmark in strength and durability for latex gloves, look no further than **Diamond Grip™** gloves. **Diamond Grip™** gloves are thicker than typical latex gloves for enhanced protection, and also provide the greatest protection where you need it – at the fingertips – to prevent ripping and tearing.

**Recommended for use when:**

- **Strength and durability are a requirement on a regular basis**
- **Working with utensils and instruments in mid- to heavy-duty environments**
- **Quality and reliability are what you desire in a hard-working glove**

**Diamond Grip™** gloves give you the best in durability and strength across the board.

STANDARD EXAMINATION GRADE  
PRODUCT CODE: **MF-300-XS** through **XL**

**EVOLUTION ONE®**

If it's the premium in comfort and consistency you're after, choose **Evolution One®** gloves. **Evolution One®** gloves don easily in wet and dry environments for convenience and offer a secure grip. The gold standard for Microflex latex products, **Evolution One®** gloves provide maximum comfort in hand protection, and combine tactile sensitivity with durability and strength.

**Recommended for use when:**

- **Maximum comfort is required for lasting wear**
- **Rapid donning and anti-sticking properties are needed**
- **Working with a variety of instruments and equipment**

**Evolution One®** gloves are the premium glove for maximum comfort and consistency in mid-range environments.

STANDARD EXAMINATION GRADE  
PRODUCT CODE: **EV-2050-XS** through **XL**

**SafeGrip®**

For the highest level of protection and durability in latex exam gloves for heavy-duty or high-risk environments, rely on **SafeGrip®** gloves. **SafeGrip®** gloves are up to 4 times thicker than standard latex exam gloves for defense against many hazards, and is ideal protection for your toughest tasks.

**Recommended for use when:**

- **Added protection is required for extreme environments**
- **Extra coverage over the wrist and forearm is needed for enhanced safety and security**
- **Working in situations requiring intense pressure and strain on the hands**

**SafeGrip®** gloves are the best choice in a latex for heavy-duty/high-risk applications.

EXTENDED CUFF EXAMINATION GRADE  
PRODUCT CODE: **SG-375-S** through **XL**
