

## Half Mask Systems

Our complete Half Mask Systems offer portable, lightweight air sources for one, two or three workers. They are offered with one, two, or three comfortable half mask supplied air respirators, a ¼ hp ambient air pump, ¾ hp pump or 1½ hp pump, and 50 or 100 foot breathing air hose.

- Part No. 9205-01**     One Worker Half Mask System with 50' hose
- Part No. 9215-01**     One Worker Half Mask System with 100' hose
- Part No. 9205-02**     Two Worker Half Mask System with 50' hose
- Part No. 9215-02**     Two Worker Half Mask System with 100' hose
- Part No. 9205-03**     Three Worker Half Mask System with 50' hose
- Part No. 9215-03**     Three Worker Half Mask System with 100' hose

## Full Mask Systems

The Full Mask Systems provide a portable air source for one, two or three respirator users. They include one, two or three full mask supplied air respirators, a ¼ hp ambient air pump, ¾ hp pump or 1½ hp pump, and 50 or 100 foot breathing air hose.

- Part No. 9200-01**     One Worker Full Mask System with 50' hose
- Part No. 9210-01**     One Worker Full Mask System with 100' hose
- Part No. 9200-02**     Two Worker Full Mask System with 50' hose
- Part No. 9210-02**     Two Worker Full Mask System with 100' hose
- Part No. 9200-03**     Three Worker Full Mask System with 50' hose

## Tyvek Supplied Air Hood Systems®

In areas such as painting or asbestos abatement, where levels of contamination are low, these complete SAR hood systems offer a portable air source for one or two workers. They include disposable, lightweight, loose fitting Dupont Tyvek hoods, a ¼ hp or 1 ½ hp ambient air pump and 50 or 100 feet of breathing air hose.

- Part No. 9220-01**     One Worker Tyvek Hood System with 50' hose
- Part No. 9230-01**     One Worker Tyvek Hood System with 100' hose
- Part No. 9220-02**     Two Worker Tyvek Hood System with 50' hose
- Part No. 9230-02**     Two Worker Tyvek Hood System with 100' hose

## 100% Disposable Economy Poly-Pro Hood System

Our completely disposable hood allows the user to throw the entire respirator away after use. It comes with all the proven features of the Allegro hoods but, incorporates the use of fully disposable poly propylene material along with a disposable suspension and breathing air tube. This convenient design works well in painting environments or where dirty atmosphere is an issue. The hood is comfortable and has a large viewing window and incorporates an adjustable head suspension. Includes a unique, plastic, disposable OBAC quick connect. NIOSH approved.

- Part No. 9221-01**     One Worker 100% Disposable Poly-Pro Hood System with 50' hose
