

## PACER XP

Mixing Arms	Timer	Motor	Drive	Optional Accessories
Single	None	1/3 HP	115/230V, 60 Hz, Hard Wired	
Dimensions				
Width 23.5"	Depth 17"	Height 17"	Weight 120 Lb.	Notes: Explosion proof switch included.

The Pacer XP single arm Explosion Proof mixer allows you to mix one container at a time in a Class I, Group D environment. (to mix two containers simultaneously, see the Pacer Dual models). The multisize clamping action provides a secure holding system for containers of many shapes and sizes.

The high speed, bi-axial motion creates a shear that ensures a complete mix. Colors and accents are quickly and evenly distributed throughout the container. The Pacer's heavy duty design allows for the mixing of industrial weight coatings, adhesives, inks and more. The Explosion Proof unit must be installed by a certified electrician in compliance with the hazardous environment that the mixing is taking place in.

The Pacer is available in a full range of drives and timers and the Safety Enclosure options available provide for maximum operator safety. A full one year parts and labor warranty comes standard.
